THE McKINLEY BILL AND THE WORLD'S FAIR.

European papers notably the Independent Belge says the adoption of the McKinley bill insures the failure of the Chicago World's Fair, as it will be a needless and hopeless expense for Europeans to send their exhibits there. Why, is not explained. It is quite evident that in no way can the McKinley bill increase or decrease the expense of making an exhibit at Chicago in 1892. The system used at the Centennial in 1876, with regard to exhibits, will be the same in operation at the World's Columbian Exposition, McKinley bill or no. I seem hardly possible that Europe would use as an argument against the passage of the new Tariff bill a threat if it became a law of not sending their exhibits to the Chicago Exposition. As for increased expense, it is a bug-bear.

When exposition articles arrive at the Custom House they are subject to tariff duty as other matter, but to the owner is given a rebate check for the amount, which, when the goods are brought back to the office after the Exposition, on their return to Europe, will call for the entire amount.

THE LEGISLATIVE TICKET.

The Silver State advocates a non-partisan legislative ticket in Humboldt, saying:

Several of the best citizens of this county sanction a movement to elect three members of the Legislature independent of their political leanings. Considerate men of all parties deem it of greater importance to the taxpayers to have representatives who will devote themselves to reducing State and county expenses rather than the advancement of party interests. The State and many of the counties which compose it are in debt. The rate of State taxation is the highest in the Union and in several counties taxes are higher than the interest rate on approved securities in many of the older States. There are few inhabitants and the amount of assessable property is less (probably because there are too many Colocords) than at any time since Nevada was admitted into the Union. State and county expenses continue to be as high as when the population and taxable property were greater. The expenditures of the State Government as now conducted are greater than its receipts and unless a remedy is applied bankruptcy is inevitable. The same condition of affairs exists in several of the counties and unless men, untrammelled by party pledges, are sent to the Legislature with the fixed and steady purpose to inaugurate reforms and urge their adoption independent of the decrees of the caucus Nevada will be a good place to move away from.

Let the Central Committee or conventions of both parties select three good and true men from both parties, to represent this county in the Assembly, men who will be under no party obligations, except to vote for United States Senator, and the Silver State will, to the best of its ability, endeavor to show the people of Humboldt why they should be elected. In State matters, partisanship should be a secondary consideration to everybody but the professional politician while the reduction of expenses is of the greatest importance to every Nevada.

THE POPE AS A MEDIATOR.

A Paris Journal Grows Enthusiastic Over the Prospect

A Bennett cablegram, dated Paris, October 20, in which the proposition that the Pope should arbitrate between England and France in the Newfoundland question excerpts the following from an editorial on the subject in the La Liberté of that date. "What a magnificent role it would be for the Pope, in spite of his lost temporal power, to remain the arbitrator, mediator and pacifier of kings and nations. We can understand how this would tempt the ambition of the great Pontiff; how governments would see in this religious exhibition more guarantees than in any other."

Patti to Receive \$5,200 a Concert.

Madame Adelina Patti has signed a contract with Daniel Meyer to make a tour in Russia and sing at twelve concerts. She will receive 1,000 guineas for each concert. It is fourteen years since Patti visited Russia and she intends this to be her farewell visit. Patti has also arranged a six weeks' tour in Great Britain, beginning October 10th.

The Pioche Record says there is more business doing in that town just now than for many years past. There are more people here and more money. This is to a great extent owing to the building and mining developments now in progress, and somewhat to the railroad building. The latter also inspires hope of the future development of the county; and if a certain direction is taken by the road from Pioche onward, the whole State will be greatly benefited.

Vice President Webb of the New York Central has issued a circular to his employees, in which it is stated that the company objects to them being Knights of Labor. The management is satisfied that membership in this organization is inconsistent with faithful and efficient service, and likely at any time to prevent it from discharging its duty to the public.

The Union Iron Works of San Francisco have secured another contract from the Government to build a battle ship. The success of the Charleston and San Francisco has demonstrated that this coast can compete to advantage with any section of America in the building of sea armament.

The bank statement shows a reserve decrease of \$2,564,260. The banks hold \$11,500,000 in excess of the requirements.

OUR WASHINGTON LETTER.

An Extraordinary Amount of Work Accomplished by the Last Congress.

WASHINGTON, D. C., Sept. 29, 1890.

EDITOR JOURNAL: The whole country seems to be tumbling over itself in the attempt to try to satisfy the demands of the farmer. Here at Washington the anxiety to prove that our statesmen live, move and have their being only for the interest of the honest granger is positively ludicrous.

The most absurd propositions are assured of a solemn and serious consideration, provided that it comes branded with the approval of the "grange," the "wheel" or the "alliance." The proposed measure may set at defiance all the most sacred canons of accepted finance; it may demand the placing of obstacles in the way of trade which would ruin cities and depopulate the surrounding country; it may advance theories of class legislation so widely absurd that their mere statement is their best refutation, but so long as it has the "grange" blown in the glass on the bottle, it is certain to be accepted as worthy of the semblance of acceptance. No "farmers' measure," so dubbed, has been reported adversely at the present session of Congress. Protracted hearings have been granted to the advocates of the most grotesquely measures. Solemn inquiries have been put regarding the effects of bills which if enacted into laws would have paralyzed trade and ruined commerce, and when the force was over the bills have been quietly pigeon holed to gather must in the files of the Senate committee rooms.

We are so close to an adjournment, that a resume of the longest session of Congress would not be amiss.

In many respects this has been one of the most interesting sessions for many years, and the amount of legislative work done has been extraordinary.

I copy from the "Washington Post" the figures of the business done during the session, which are as follows:

"Bills and joint resolutions introduced in the House, 12,402; in the Senate, 4,570; or a total of 16,972, against 15,593 in the first session of the last Congress, which in this matter far exceeded all previous records. Reports made in the House, 3,215; in the Senate, 1,317 (no account being taken in the Senate of other than written reports). Bills passed by the House, 1,292; of which the Senate has passed 849. All except a few of these 849 have become laws or are awaiting the President's approval. By the Senate, 1,100, of which 488 have been sent to the President, making a total number of about 1,335 acts or laws, against 1,790 for the whole of the last Congress. Of these acts, 606 House and 276 Senate bills were for pensions to individuals."

In the completed work of the session, aside from the revision of the tariff and internal revenue laws by the McKinley-Aldrich Tariff bill, the following measures enacted into law may be named as the most important:

The bill providing for the monthly purchase of 4,500,000 ounces of silver. The customs administrative bill. The dependent and disability pension bill.

The anti-trust bill. The anti-lottery bill.

The provision for a World's Fair in Chicago in 1892, to celebrate the four hundred anniversary of the discovery of America.

The admission of Wyoming and Idaho to Statehood.

The most important bill.

The land-grant forfeiture bill.

The original package bill.

The provisions in the Naval appropriation bill to add to the new Navy three line of battle ships, one protected cruiser, one torpedo cruiser and one torpedo boat.

Among the other public measures of importance that have been pushed to enactment during the present session, in addition to the thirteen regular appropriation bills, are the following:

Repealing the Act of 1888 which withdrew practically all the Western public lands from settlement, and providing that hereafter only actual reservoir sites shall be withdrawn from entry and that no one person shall under any or all of the land laws enter more than 320 acres (in the arid or arid bill).

To incorporate the North River Bridge Company and authorize it to construct a bridge across the Hudson river.

To set apart as a public park the tract of land containing the mammoth trees of California.

To provide certificates of honorable service to those who have lost their certificates of discharge.

For the establishment of a national park on the battle field of Chickamauga.

For the relief of the Mississippi river valley flood sufferers.

The Portage lake and Hennepin canal and the Galveston deep-water harbor projects, in the river and harbor bill.

For the appointment of 600 and more clerks in the Pension office to adjudicate cases arising under the Senate dependent and disability pension act.

Appropriating \$1,000,000 for the purchase of nickel for the Navy.

To authorize the appointment of John C. Fremont as a Major-General or the Army retired list.

To provide for new designs of the United States coins.

That no person in time of peace shall be tried for desertion after the lapse of two years.

To prevent desertions in the Army by enabling recruits to "buy out."

To authorize the President to cause certain lands heretofore withdrawn for reservoir purposes to be restored to the public domain, subject to entry under the homestead laws.

Extending the act for the relief of rail road lands' settlers to all persons who have been on railroad lands five years, but whose entries have not been recorded.

To discontinue the coinage of the three and one dollar gold pieces and the three-cent nickel pieces.

For a census of the number of people who own their own homes and farms, and the amount of mortgages thereon; also a census of the Chinese.

For the appointment of an additional Assistant Secretary of War, and an additional Assistant Secretary of the Navy.

To increase the pension for total helplessness.

For the relief of soldiers who served during the late war under assumed names.

To prevent the introduction of contagious diseases from one State into another.

To apply the proceeds of the sales of public lands to the support of agricultural and industrial colleges.

To pension Mrs. Fremont and Mrs. Crook.

To take statistics of express companies in connection with the census.

Establishing a National zoological park.

Just before a session closes, many important measures hang fire and are naturally forced over to the next session.

From appearances, one of these is the bill to relieve the Supreme Court of the United States by establishing an intermediate Court, which is now in conference between the two houses.

It is said among the knowing ones that extraordinary conditions will govern the first of the second session of Congress. The Senators on the Republican side of the chamber, it is said, have pledged themselves to vote on a proposition to change the rules that govern that body for the express purpose of making possible the passage of the Federal Election Bill, which was shelved by Senator Quay while the Tariff bill was under discussion. The proposition will no doubt meet with whatever obstructive opposition the Democratic Senators can bring forward.

Seven bills were vetoed by the President, and are as follows:

Authorizing the city of Ogden, Utah, to assume an increased indebtedness.

For public buildings at Dallas, Tex.; Hudson, N. Y., and Tuscaloosa, Ala.

Authorizing the Board of Supervisors of Maricopa county, Arizona, to issue bonds in aid of a certain railroad.

Changing the boundaries of the Uncompaghe Indian Reservation, and extending the time for the payment of lands purchased from the Omaha tribe of Indians.

At the beginning of the next session I hope to be in a better position so as to be able to give the JOURNAL a Washington letter at least once a week. Aurore, P. V. R.

CENSUS ENUMERATORS.

Gentlemen, You Cannot Get Your Money Until You Do Your Work.

There is a very audible murmur from all parts of the State from late census enumerators that they have not received any pay for their work, says the Virginia Enterprise.

It would seem that incomplete and rough work has been done. Men who in the long ago knew how to figure have been dabbling in the business, and the result is anything but satisfactory to Uncle Sam, who has sent his pupils back to their lessons.

The blanks sent out to be filled have not all been filled out in proper form. For instance, the supplemental schedule, which Uncle Sam deems important, has been entirely ignored in many cases. The death record has often been left out, and other matters omitted which should have been supplied under the contracts.

The enumerators are in receipt of letters calling upon them to fill up the chinks and cracks in their reports, and when this work is completed they will receive their pay, "but not before," says George I. Lammon, who tried to get the cash to pay off on his recent visit to Washington.

One of the principal reasons for the incomplete work that has been done, it is but proper to state, is the fact that Nevada's 45,000 is scattered over a territory as large as France with its 37,000,000, and the proportion of pay was no better.

On His Muscle.

The Speaker's desk in the House was a source of amusement to the few visitors at the Capitol to-day, says a Washington dispatch.

The blue baize covering had been removed and the right half of the desk, where the gavel of the Speaker fell, was found to be nothing but a mass of splinters about the size of matches. Many of these splinters were taken away by the visitors as souvenirs of the Fifty-first Congress.

John Morley has dropped a bomb into the camp of the Unionists in Ireland and England. He shows conclusively that the recent severe punishments visited upon the Irish people by the Crown constabulary were unwarranted. Referring to the recent disturbances in Tipperary, says the Ogdon Democrat, he asserts that there was no disorder in the vicinity of the Court whatever, but that the armed retainers of the Crown clubbed innocent and orderly people without mercy. There is a day coming when the wrongs will be righted and every addition to the number of indictments already piled up against the English people and government will only add to the humiliation which is certain to visit them.

BREVITIES

The Tariff bill takes effect Monday.
The State Horticultural Society met last night.

M. D. Foley went up to Carson yesterday morning.
George W. Baker and General Irish are at Austin.

For window glass, all sizes, go to Lange & Schmitt.
Carson has a female foot-racer—Miss Cony Coronado.

There was a heavy frost and a slight fog yesterday morning.

W. E. F. Deal was a passenger for Virginia City on yesterday morning's train.
Francis G. Newlands and family returned from San Francisco yesterday morning.

E. B. Ryan, head of the Southern Pacific Tax Department, was in town yesterday.
Quite a number of farmers with their families were in town yesterday to attend the circus.

No 2 emigrant was an hour late yesterday morning, caused by a hot-box at Walsworth.

John Foley of Carson had his leg broken at the machine shops Friday by having a car wheel fall on him.

If you are looking for a house to rent during the winter, see the offer of Dr. Bergstein in the 50-cent column.

Attention is called to the new ad. of Fall and Winter goods of the Palace Dry Goods and Carpet House in this issue.

Go to Lange & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Largest variety and best values.

Venus, Mars and Jupiter are evening stars at the close of this month. Uranus, Mercury, Saturn and Neptune are morning stars.

Frank Porter, who lost his leg from being run over by the cars here last Wednesday, has been taken to the Sacramento Hospital.

The Central Nevada: The musicians of town have organized a brass band of ten pieces. They will soon be able to give the denizens of our burg the mellow strains of "And Lyng Syne."

Rosecoe C. Bulmer, Nevada's representative at the United States Naval Academy, last week passed a most creditable examination at Annapolis, and has been admitted to the Academy.

The Virginia Enterprise, in commenting on the fact that A. H. Manning of Reno got the government contract to do the plumbing in the Indian school at Carson, says that Comstockers never leave their dens to get their fins on anything.

Allen O. Bragg, who was awarded \$300 by the Board of Trade for services as Secretary of that institution during the year, has declined to receive the amount, as he thinks the Board of Trade has more use for the money in prosecuting its good work than himself.

The Enterprise As Mr. and Mrs. Harrington of Gold Hill were returning from the prison last evening they were run into by Lieutenant Dockery of the prison guard. It was dark, and the wheels of the buggy occupied by Dockery passed over the other wheels. Mrs. Harrington was thrown out and her head so badly cut that it was necessary to take nineteen stitches.

The Circus. While not the largest circus upon the earth, McMahon's is far from being an inferior show, as the crowd which assembled yesterday afternoon and evening to witness it will testify. The horses are, as a rule, better looking animals than usually found in traveling hippodromes, and the tumbling and performing was good. The managers seem to have a desire to please people, and their uniform courtesy was in strong contrast to the arrogance of some combinations which have opened here.

North America Not Much Interested. A census of the business firms of the Argentine Republic shows that Germany is represented by 403 firms, with a capital of \$16,810,000; Great Britain, 257 firms, capital \$121,960,000; Italy, 7720 firms, capital \$150,680,000; Spain, 2,223 firms, capital \$3,284,000; native firms, 1,357, capital, \$241,760,000; the United States, only 26 firms, capital \$2,189,900.

A Mean Hotel Keeper. The practice of a certain hotel-keeper in this city, says the San Angelo, Texas, Enterprise, whose name we will not mention cannot be too promptly and thoroughly discouraged. We allude to his habit of entering the dining-room during meal hours and yelling "Fire," or "Dog fight," or, what is worse, calling us out on a pretense of business. Twice we have lost out third piece of pie in this manner.

Major George A. Hilton. Major George A. Hilton, of Washington D. C., the distinguished temperance lecturer, will deliver a course of eight lectures at Reno, beginning Sunday, October 12th. It will be remembered that Major Hilton spoke to crowded houses for five nights at this place two years ago.

University Societies. At the State University, Friday, the young men assembled and organized a society which was to be exclusively of the sex. The other two societies, the Literary and the University Lyceum are to be abandoned. The young ladies also intend organizing a society of their own.

ROUGH ON THE PREACHER.
Rev. Van Deventer Gets Some Pizen Switch Music.

The Carson Appeal says a few days ago a couple got married at Pizen Switch, in Mason valley and according to a time-honored custom of the country, the cowboys came in from all directions to charivari the pair.

It happened that the Rev. Van Deventer married the couple and staid overnight at the Switch, and the groom, a man who was fifty above the average man about to marry, conceived the idea of escaping the terrors of the tin horns and horse fiddles, so he hired a man to steer the cowboy band to Van Deventer's lodgings instead of his own.

The band reached the place in due season and opened up a most infernal din under the reverend gentleman's window while the newly wedded pair were half a mile away enjoying the joke and catching the sound of the distant music.

FUN AT OKLAHOMA.
Some Racing Not in the Fall Programme

The Oklahoma Legislature is having a stormy time in an effort to secure a location for their Capital. Several towns are rival claimants for the honor. The Speaker of the House signed a bill Thursday for its location at Oklahoma City. Immediately after signing it, a motion to reconsider was carried. In the meantime a member secured the document and started on the run for the Upper House. The Speaker declared a recess and the entire body gave chase. After running several blocks he was captured and the mob in their rage almost carried into effect a proposition to hang him. The bill was secured and returned to the House, where the Speaker erased his signature.

Mormon Proselytes.
The Mormons, in despite of the fact that their practices have been to all purposes, abolished in Utah, are still making proselytes to their nefarious faith in Europe and sending them to America.

Wednesday 220 landed at New York from the steamer Wyoming, and the authorities there exercised all their powers of pruriosity, picturing the true character of Mormonism in all its hideous light, but to no purpose.

Among the lot is a married English woman, who left her husband in England to take up the Mormon faith. There are many handsome and intelligent looking girls in the party who have been led from their homes by the machinations of the Mormon missionaries.

Advice to Mothers.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake at all. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

A Maine Fish Yarn.
A good fish story is told regarding a recent party while at Moosehead. "It was 'high 12,' the sun was darting its rays upon the clouds above them, while the condensed vapor was dropping down as they angled from the steamer's sides, rocked by the billows of the lake. A sudden jerk upon the line of one of the party told him that business had begun. The guide was standing near, and with a stentorian voice exclaimed: 'Hold him! don't lose him! he is actually a five footer, (meaning the fish). As soon as hooked this monster (with spots) darted for somewhere known only to those dwelling beneath the surface of the lake, and whether he ever arrived there is still clouded in mystery."

"One thing is positive, he reeled off 300 feet of line, tore it from the reel and left the fisherman with only a portion of the tackle. Others in the boat were anxious spectators, and as the line parted company with rod and man they caught him in their arms, gently bore him to the cabin and headed the boat for shore. By good nursing he in a few moments regained consciousness and expressed himself as very grateful to his rescuers for saving him from a cold bath in the waters of this beautiful lake. It is evident that larger boats, stouter lines and more expensive apparatus must be used to handle these monsters of the deep."—Lewiston Journal.

An Enchanted House.
A house in the Avenue de Saxe at Lyons is just now exercising the minds of the more superstitious section of the inhabitants to an extraordinary extent. Every evening large crowds take up a position in front of the building, which they contemplate with curiosity not unmixed with awe, and its tenants are leading anything but a happy life. The house is acquiring rapidly a reputation for being haunted, or, as the people call it, "enchanted," since at intervals the sounds of mysterious rappings and tapings—which at last grow so strong as to cause the very planks and windows to quake and shake—penetrate even to the ears of the outside public.

The police have overhauled the place, peeped into all the cupboards, tried the ceilings and walls and put the furniture into a general state of confusion without arriving at any solution of the mystery, though there was some method in the antics of the "ghost," who treated himself to a spell of rest while the inspector was on the spot. Nothing daunted, however, the police are continuing their efforts actively, and as they are determined to detect the author of this grim joke it is probable that the worthy Lyonaise will soon be initiated into the mysteries of the maison enchantee.—Paris Letter.

Her Duel with the Doctor.
An extraordinary duel is reported to have taken place in Vienna. A few days ago a girl, aged 19, challenged a young doctor who had offended one of her friends and refused to apologize. He was challenged in the usual way by two seconds, a student and an officer of reserves, and when he ridiculed the idea the girl threatened to horsewhip him publicly.

The challenge was then accepted and a meeting, with seconds and doctors, took place in a hired room in a Vienna suburb. All the rules for a duel with swords were strictly observed. The doctor first acted on the defensive, but was soon obliged to fight in earnest, and left off after the second round with a wound in the left side, which was declared not to be dangerous. The girl, a Croatian educated in South America, is said by the seconds to be the best fencer they ever saw. After wounding her adversary she left the place without casting another look at him.—Wiener Tagblatt.

We Have All Met Them.
The season is now at hand when you are apt to run against those two persistent faddists, the horsey man and the yachting man. If you escape one of them for a day you are certain to fall a victim to the other. The horsey man tells you about his experience. Perhaps he will go so far as to give you a "sure tip" for today. The yachting man, if he owns a boat, describes his rigging for this season and prattles about jibs, center boards, legs, stays, beats to windward and other topics of equal interest to a land lubber. They are rather harmless in their way, these talkative enthusiasts, but they never seem to realize that they may become just a trifle wearisome at times.—New York World.

Garfield's Sons.
James A. Garfield has been spending a few days in this city, having come upon a triple mission. He grows to resemble his father physically, as he is said to do intellectually, more than any of the other children. The resemblance, however, is not so apparent when he is obliged to use his eyes closely, because he has been compelled to wear spectacles. With his brother Harry he has established a law business in Cleveland, and if the clients are all of them men and corporations of such consequence as those whose interests compelled him in part to visit this city the Garfield boys have certainly done amazingly well.—New York Cor. Philadelphia Press.

An An Sable thief went to a widow's barn the other night and milked the widow's cow. Next morning that poor widow found a pocket book containing \$1.17 in the stall and advertised for the loser to come forward, prove property, return the milk and get his cash.

Senator Hearst's Washington house contains seventy rooms. So far \$170,000 has been spent in furnishing it, and this is said to be only a beginning. Thirty years ago the senator occupied an attic room in a Missouri farm house, where he was working for his board.

A monster crab was landed in a net from a wharf in San Diego by L. C. Bragg. The body measured 18 inches across, while the spread of the pincers

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines.

Peculiar in combination, proportion, and preparation of ingredients. Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable king—dom.

Peculiar in its strength and economy—sarsaparilla is the only medicine of its kind. "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "goodname" at home—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla.

Sold by all druggists. \$1; six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

NAY AND YEA.

A pretty little maiden
Drove across the street from me;
Her father is a captain
Who is gone away to sea.
I often nod to her
And she does not say me nay;
In fact I think she likes it,
Though she does not say me yea.

I met her in the wood-road—
She had been walking there alone
And had stopped to rest a moment
By the path, upon a stone.
So I sat me down beside her
And she did not say me nay;
In fact I think she liked it,
Though she did not say me yea.

I met her one bright morning
Walking down the village street;
Her dress it was so pretty,
Her face it was so sweet,
That I walked along beside her
And she did not say me nay;
In fact I think she liked it,
Though she did not say me yea.

We were wandering one evening
In the lane beyond the hill;
The air was calm and fragrant,
The place was cool and still,
And I took her hand a moment,
She did not say me nay;
When I claimed her mine forever,
And as last she said me yea.

Reno, September 13, 1890.

INSURANCE.

THE
MANHATTAN
Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar, SECOND, in case of death while making these small deposits the life insurance company will pay, just when most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even 50 times as much as has been deposited; or on the

Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on the \$300 per year being only 8 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he dies while making these payments—even after one only has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family, and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for, thus, if one-fourth of the payments had been made, he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances, not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

Entire Property in Fee Simple

Is secured. Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus leaving the whole amount paid in and leaving the family destitute, or dependent, it offers a

Specific Bond Secured by Millions

of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company

will receive prompt reply if addressed to

PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held at Virginia City, Nevada, September 4, 1890.

The record of the Republican party is its best platform. No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authority to the rights of business, none has so managed the affairs of a State as to encourage the development of a dependent, needy and idle class of the fifty-first century, none has so elevated a nation and so contributed to the happiness of man, none has so honestly and economically carried on the routine duties of office.

In all things it has been the direct opposite of the Democratic party. Grand in its ambitions and impulses, firm and resolute in its consistency, strong in its devotion to principle, it is now, as it has been from its birth, the representative of all that is noble and pure in its own country and hope and promise of a better future for the human race.

The battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the National credit, its efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization that this or any other country ever had.

The issues of the present campaign, and the needs of the present hour, demand that the Republican party should stand for the preservation of the Union, the protection of the National credit, the upholding of the National credit, the efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization that this or any other country ever had.

It is a duty of the Republican party to stand for the preservation of the Union, the protection of the National credit, the upholding of the National credit, the efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization that this or any other country ever had.

It is a duty of the Republican party to stand for the preservation of the Union, the protection of the National credit, the upholding of the National credit, the efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization that this or any other country ever had.

POLITICAL.

the tariff in a patriotic and business like way, such as will protect the interests of labor and at the same time encourage capital to enterprises that will furnish it with employment at good wages. New States which were denied their rights before have been admitted to the Union, and the grip of Tammany Hall upon the Presidency broken. As trusts that grew rank under Cleveland's Administration have been broken up and made to obey the laws of honest commerce.

Efforts are being made to prevent or punish frauds and intimidations in elections. A navy has been provided for and suitable pensions granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions, while the Republican policy of free homes and free schools can be extended. Unearned land grants are being restored to the public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

We endorse the Administration of President Harrison and commend his conservative course as striking in contrast with his predecessor in office. During the former Administration silver and wheat touched the lowest price ever known, and farmers burned their corn for fuel. Trusts were stimulated, finances disarranged, strikes prevailed, the small service was demoralized and business found itself oppressed instead of being encouraged by the methods of the Government, whose whole business should be to benefit the country.

To-day silver, wheat and all the products of labor are rapidly rising, and while the Democratic officials may perhaps be innocent of intentional designs to oppress the people they are culpable for the results of business as they would be for crimes. Under Mr. Cleveland and control labor are kept out of the country, American laborers are mulctured in protected, and a large number of a departure is intelligently conducted for its benefit, and the laws are enforced in a wise, firm and patriotic manner, in pursuing its duties to the voters of Nevada, the Republican party pledges its nominees to retrenchment wherever it is possible in county and State expenditures.

We pledge our nominees to a system of State improvements which shall save the water now running to waste and devise means to secure its use in the irrigation of fertile lands now lying idle. We endorse the measure introduced by Senator Stewart proposing to cede the lands within our limits to the State for the purpose of aiding to improve our water storage and irrigating systems, and we appeal to Congress and the President to grant this much needed aid.

We endorse the course of our Senators and Representatives in Congress, and commend their efforts to establish a better basis for the use of silver as money, and to secure our uncompromising demand for the free coinage of both gold and silver and their equal station in our National currency.

Whereas, The practice of letting mail contracts in this State to non residents thereof, who seek and obtain such contracts only for the purpose of subverting the same has resulted in an inferior and impaired mail service.

Resolved, That our delegation in Congress be requested to procure, if possible, the passage of a law to prevent such abuse in the future.

We are in favor of the improvement of the wages of American labor by restricting immigration from foreign countries, a thorough revision of our naturalization and land laws, the construction of naval and coast defenses, the fostering of free schools and popular education, the enforcement of a free tariff and a fair count, establishing the defenses of our country, the protection of every citizen at home and abroad, the fostering of a policy that will extend our commerce, the lifting of foreign communications by land, and liberal appropriations by Congress for the construction of water reservoirs and a system of irrigation.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as the coming election the question as to whether or not a Constitutional Convention will be held is to be submitted to the people, that we earnestly invite a calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party of Nevada to secure all safe and possible retractions in public affairs, and especially in dispensing with unnecessary offices and useless reputations in adjusting salaries upon a basis of efficiency, of reducing the per diem and mileage and shortening the session and lessening the number of members of the Legislature, in the reduction of taxation and in consolidating county offices and diminishing county expenses, and to this end we pledge the nominees of the convention and earnestly ask that the nominee of the several county conventions be likewise of us.
